KBS DiamondFinish ClearCoat is a single component permanent high solids clear coat. It is the latest development in ultra high performance clear coats with very high solids (over 60%) and low VOCs. DiamondFinish ClearCoat is **incredibly tough** and hard like no other clear coat on the market. This **water clear high gloss** clear coat remains

permanently flexible and is able to perform in the toughest environments **without yellowing, cracking or peeling**.

DiamondFinish ClearCoat can be applied directly to cured automotive basecoat, standard solid color paints and single part or two part paints. It can also be applied to non ferrous metals including; aluminum, alloys, brass, chrome & copper.

DiamondFinish ClearCoat **will cure without heat or UV lights** in temperatures from 50° to 86° Fahrenheit.

DiamondFinish ClearCoat is able to perform in the **high temperature automotive applications** including the use on cylinder heads, engine blocks, brake components and even intake manifolds, **without yellowing up to 300° Fahrenheit**.

ADVANTAGES

- Over 60% Solids, Single Part Formula
- Tougher & Harder than 2 Part Clear Coats
- High Temperature Resistance Suitable for Motors & Brake Calipers
- High Chemical Resistance (including fuels)
- Graffiti Proof
- Re-coat in 1-2 Hours
- Seals Ferrous & Non-Ferrous Metals

APPLICATIONS

- Protecting Steel & Plastic Bumpers Paint Work
- Automotive Aluminum Fittings, Fuel Tanks & Parts
- Protecting Existing Paint Work From Physical Damage
- Stopping Chemical Attack From Acids & Alkalis on Existing Paint Work
- Protecting Paint Work From All Fuels
- Sealing Motorcycle Fuel Tanks Paint Work
- Graffiti Protection
- Custom Automotive Refinish
- Marine Internal & External Refinish

PROFESSIONAL USE ONLY
